CONSTRUCTION

Hull & Deck

Vacuum infused epoxy based vinylester cored GRP
 White (isophtalic) gelcoat with decorative bands
 Optimal strength/weight ratio - achieved by using multiaxial and unidirectional E-glass fibers
 Transparent gel coat under waterline for visual quality control
 Thermal and sound insulated hull and deck
 Stainless steel frame bellow saloon floor as reinforcement in way of keel, taking loads from keel stepped mast to
 Stress areas (where winches / major deck fittings are fixed) reinforced with alu or okoume plywood
 Hull and deck are bonded with structural glue and additionally laminated

Layout

CHARTER VERSION LAYOUT

Charter version of More 40 has 3 cabins and 2 toilets with shower and is a great boat for charter holidays. Two toilets allow the crew to have intimacy on a 40 ft yacht.

OWNER'S VERSION LAYOUT

Owner's version of More 40 has 3 cabins and 1 toilet with shower plus skipper's table in the salon. Both versions of More 40 have the same equipment and are perfect for sailing and racing.

Tank level gauge(s) (placed on electric switchboard)
 Mixing fresh water taps are fitted in both Head units and in the Galley
 Shower with hot&cold fresh water can be fitted in Cockpit
 Hot water tank capacity of 30 l heated by integrated heater run with 220V shore power or by engine cooling (fresh) water
 Shower basins are drained direct into the sea by electric shower pumps
 Electric shower pumps are operated by automatic switch
 Shower in cockpit (hot and cold water)

MACHINERY MAIN COMPONENTS

Yanmar engine 3JH3 30HP with sail drive
 Gear/gas lever control is placed in Cockpit
 Alternator 80A
 3 blade fixed propeller

SYSTEMS FOR MACHINERY MAIN

1 Fuel oil tank in stainless steel for a total capacity of app. 250 l
 Tank inspection hole/cover with incorporated fuel float
 Tank level gauge (placed on electric switchboard)
 Fuel oil Filter with water Separator

SHIP SYSTEMS

Bilge systems

Electric bilge pump, operated by automatic and/or manual switch
 Electric bilge pump for aft bilge operated by automatic and/or manual switch
 Hand operated bilge pump is positioned in the Cockpit

Electrical systems

24/12 V DC SYSTEM

Classic lights in whole interior
 Main Switchboard includes LED indicators and thermomagnetic switches
 12 V sockets
 Battery Charger
 100 Ah engine start Battery
 150 Ah service Batteries Bunk
 Battery Switch
 Safety battery protector Anode
 Emergency start crossover system

230 V AC POWER SUPPLY

230 V AC Distribution board
 Main Circuit Breaker
 230 V AC sockets
 Shore Power dock side Cable
